

(U//FOUO) Who Can Use the SIGDEVToday Learning Portals?

FROM: [REDACTED]
SIGINT Development
Run Date: 07/16/2003

(U//FOUO) Are you any part of the enterprise-wide team responding to an Intelligence Need? Does your job in any way enable the recognition or aquisition of SIGINT which will better answer an Intelligence Need? Perhaps you are a Language Analyst, an Intelligence Analyst, a Collection Manager, a Signals Analyst, a Global Network Analyst? Do you work in an Analysis & Production Product Line or within CES, PES, or TAO in Data Acquisition? Are you seeking ways to improve the Selection and Filtering your target's traffic? You might even be officially designated an SRTDer.

(U//FOUO) If you find you can personally identify with any of these functions, chances are you are part of the broad community contributing to SIGINT Development and will find information within the SIGDEVToday Learning Portal that will enable you to expand your knowledge and better perform your job. You won't know until you check it out.

(U//FOUO) Gain access to the SIGDEVToday Learning Portal by using the URN "go sigdevtoday" and request access to all the current communities--including the newest community on Selection and Filtering. NT users will enjoy the greatest functionality by using the IE browser instead of NETSCAPE. Be sure to provide user feedback via "sigdev_input."

"(U//FOUO) SIDtoday articles may not be republished or reposted outside NSANet without the consent of S0121 ([DL sid comms](#))."
